

## FOR SALE

### THE CAPT. JOHN S. QUARLES FARM

Located one mile Southeast of Gainesboro on the Gainesboro and Double Springs road, (this road has recently been designated by the Federal and State Government as State Highway No. 1, and will be built next year.) The farm contains about 130 acres of hill land. About 60 acres of the farm is in cultivation, and it will produce all kinds of grain, grasses and tobacco usually grown in this section. About 25 acres in bluegrass, with plenty of water the year around. Plenty of farm timber and wood. This is good corn and stock farm. The Jackson County High School, one of the best schools in the state, is in one mile of the farm.

For price and terms see,

LUKE C. QUARLES, Gainesboro, Tenn.

or J. T. QUARLES, Cookeville, Tenn.

## Ford

### THE UNIVERSAL CAR

Every farmer should have one or more Ford Trucks because of the profitable results that will follow their use. There is not any guess work about this statement. It has been proven on thousands of farms. If you farm, come in and let us tell you more about the Ford Truck's value to you in sure dollars and cents saving. It is a personal matter to every farmer. The Ford Truck is a business necessity. Orders should be left with us at once in order to get early delivery. Price \$550, without body, f. o. b. Detroit.

DRAPER & McCAWLEY CO.,  
Gainesboro, Tenn.

### NOTICE TO HUNTERS.

Those who hunt upon the lands of another, in any section of the state, are required to have a hunter's license, and if they hunt upon the enclosed or tillable land of another, they must also have the written permission of the landowner.

The real sportsman does not violate the law by attempting to hunt without license and the written permission of the landowner, but there are a few men in almost every community, who call themselves sportsman, but who pay no attention to the law. Such men have no respect for the rights of others, and seem to take a delight in creating an unpleasant feeling between the landowner and the sportsman.

If the sportsmen and farmer will report such fellows to the Department of Game and Fish, Nashville, Tenn., they will be promptly prosecuted.

The Open Season is as follows:  
WATERFOWL—(except swans, woodducks, and eider ducks), coots, gallinules and jasknips, Nov. 1-Jan. 31. EXCEPTIONS: Ducks and geese in Haywood County, Dec. 1-Jan. 31. Rails, (except coots and gallinules), Sept. 1-Nov. 30; Blackbreasted and golden plover, and greater and lesser yellowlegs, Sept. 1-Dec. 15.

Quail—Nov. 15-Dec. 31.

Residents of Tennessee, who hunt on Reelfoot Lake this season, are required to have a Reelfoot Lake Hunter's License, in addition to the State Hunter's License, the cost of each being Two Dollars. All Hunter's should procure their license before going to the Lake, so as to avoid unnecessary worry and trouble.

MR. P. LADUE, FARMER, SAYS, "YOU BET RATS CAN BITE THROUGH METAL."  
"I had feed bins lined with zinc last year, rats got through pretty soon. Was out \$18. A \$1.00 pkg. of RAT-SNAP killed so many rats, that I've never been without it. Our colli dog never touched RAT-SNAP." You try it. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by M. P. Bailey & Son, Quarles & McCawley, Anderson & Haile, Gainesboro.

For the best flour, get a bag of Butter Krust. For sale by Dycus Mercantile Co., Dycus, Tenn.

The finest coffee on the market is Capitol Blend. For sale by Dycus Mercantile Co., Dycus, Tenn. Try it and be convinced.

### Women!

Here is a message to suffering women, from Mrs. W. T. Price, of Public, Ky.: "I suffered with painful...," she writes. "I got down with a weakness in my back and limbs...I felt helpless and discouraged...I had about given up hopes of ever being well again, when a friend insisted I

Take

## CARDUI

The Woman's Tonic

I began Cardui. In a short while I saw a marked difference... I grew stronger right along, and it cured me. I am stouter than I have been in years. If you suffer, you can appreciate what it means to be strong and well. Thousands of women give Cardui the credit for their good health. It should help you. Try Cardui. At all druggists. E-73

## TENNESSEE TO BE HEALTHIEST STATE

GOVERNOR ROBERTS PLEDGES STATE AID IN FIGHT FOR BETTER COMMUNITY HEALTH.

Endorsed by Governor Roberts and supported by the State Departments of Health, Charities and Education, the Tennessee Anti-Tuberculosis Association will open its tenth annual campaign on December 1st to make Tennessee the healthiest state in the Union. The society does not confine its health fight to tuberculosis alone, according to its annual report which has just been completed, but it also is interested in every detail of the public health problem and its nurses and workers are not only authorities on the deadly little "T-B" germ, but they are also posted on every matter concerning community health.

A year ago the efforts of the Association were directed towards fighting the "Flu." Thousands of pamphlets were distributed and hundreds of talks were made by the officials and workers of the society. This was because the society fights any condition which lowers the vitality of the public, for it is when folks worn out and run down that the Tuberculosis germ gets to work.

According to Dr. Olin West, Secretary of the State Board of Health, it is probable that everyone has tuberculosis at one time or another during their life. Clean living saves a great number of people, but the fact remains that this scourge kills one of every ten people who die in this country.

"Tuberculosis is controllable, preventable and curable," said Dr. West. "The Tennessee Anti-Tuberculosis Association is going to campaign for money to spend in this state fighting the plague and every contribution and every little Red Cross Seal purchased means that you are not only helping to fight this plague, but that you are helping the state to raise healthier children, teaching people to care for their own health and in turn you are guaranteeing yourself better health."

### TABS

Sniff and the world suspects you. Sneeze and you sit alone.

Tuberculosis begins with a hack and a cough and unless you live clean it ends with a coffin and a hack.

Thirty per cent of the youths of this nation were rejected as physically unfit when called to the colors.

Lloyd George said: You can't maintain an AI nation with a C3 population.

Whenever you spit, whenever you sneeze,

Whenever your rugs you beat, When you scatter dust with a feather broom

And shake it on the street, When rubbish you pile on the road, When ash barrels have no top,

You're poisoning the air for somebody's lungs

And it is time that you should stop.—Keep Well Stories.

Plainville, Kan.—J. E. Gebhardt, a farmer here, boasts a goat that gives her weight in milk every 11 days. What does he feed her, condensed milk cans?

A great deal of health progress is blocked by some men who have wishbones where their backbones ought to be.

Control of tuberculosis depends on preventative measures rather than on cures.

Housewives, sprinkle your coffee and tea grounds on the floor before sweeping. They collect the dust and dust is germs.

Tuberculosis is not hereditary. You catch it.

### THE PUBLIC HEALTH NURSE.

The public Health Nurse is more than a nurse, she is a teacher, an expert on sanitary conditions, and like the physician must be able to seek out the causes of disease in a community and do away with them. The Tennessee Anti-Tuberculosis Association has four such nurses, and it is for these reasons that J. P. Kranz, executive secretary of that society, counts himself as being one of the most fortunate of men.

"There isn't any sort of a community health condition which our nurses are unable to seek out and cope with," said Kranz in a recent health conference. "The reports which they turn in to county health boards would do credit to a sanitary engineer. Because of their tremendously wide experience they are entertaining as teachers and any one of them may be quoted as an authority on public health."

"These nurses are hard to get and still harder to keep. Since few nurses have the training necessary for this work and since the National Tuberculosis Association and its 1,000 affiliated organizations throughout the country constantly are calling for this type of a nurse, the Tennessee society may consider itself fortunate in having one of the best staffs of workers in the country.

"Last year four nurses visited every county bringing their message of hope and health. Next year they must do the same and that is why the Red Cross Christmas Seal campaign must be larger this year than ever before."

## BAPTIST LAYMAN TALKS TO FELLOWS

J. H. ANDERSON OF KNOXVILLE SETS FORTH WHAT 75 MILLION CAMPAIGN MEANS.

### WILL GIVE WIDER VISION

Tennesseans Will Think in Larger Terms and Serve World in Larger Way As Result Business Man Declares.

J. H. ANDERSON

Prominent Knoxville Business Man Who Gives \$500,000 to Baptist 75 Million Campaign.

Knoxville, Tenn.—J. H. Anderson of this city, commissioner for Tennessee in the Baptist 75 Million Campaign and chairman of the executive committee of the campaign commission, looks for a larger life to come to the Baptists of Tennessee as a result of the information imparted and the enlistment in Christian service brought about in this state through the campaign. Mr. Anderson is president of the Baptist Convention in Tennessee and the Laymen's Missionary Movement, and in addition to giving \$500,000 to the campaign, contributed \$50,000 to the erection of a new church in his home city.

Discussing what the campaign will mean to Tennessee and how the sum to be raised by the Baptists of this state will be expended, Mr. Anderson said:

"The most expanding thought that has ever entered the human brain is that historic sentence spoken by our first great world citizen, nineteen hundred years ago, 'Go ye into all the world and preach the Gospel to every living creature.' The human brain is unable to compass one thousandth part of an inch more expansion, without encroaching upon the infinite, and that's God realm.

"Southern Baptists have been claiming the above sentence as one of their fundamentals all the past years. Why is it, then, we have remained such little folk with such a big thought in our brain? Is it not because we have not followed the thought with action? And this is one of the greatest, indeed, the greatest blessing that is going to come out of the 75 Million Campaign to our denomination. We are vitalizing that expanding thought and never more will we be merely citizens of our own little neighborhood, our own county, or state, or nation. 'Every man of us must be, indeed is, a world citizen.' Dr. Truett has been hammering this thought into the minds and hearts of our people wherever he has gone during the past weeks.

"For the first time in all history Baptists have put on a program that even approaches in magnitude that world-girdling order, 'Go ye into all the world.'"

"Dare I say to my beloved Tennessee brethren that the opportunity is before us to demonstrate to ourselves and to the world that we have outgrown provincialism and have become world citizens?"

"The pure unmixed blood that has made our mountain people so fine and loyal has in the past been the cause of (May I say it?) our feeling of aloofness from other parts of the country and world. We have had no melting pot in our midst, no need for one, and so have had no training in extending our sympathy and compassion for others. The 75 Million Campaign is going to lift us out of this limited vision, and give us a vision as wide as the world.

"Tennessee's business and confidence everywhere are wonderful. Many of our people feel that 100 million dollars will be raised instead of 75 million. We must not allow our overconfidence to cause us to relax our efforts. Day and night let us work with hand and heart and brain for these few remaining days to make certain the greatest VICTORY ever won for God and humanity.

"Tennessee's task in this big campaign is to raise the sum of \$4,548,000, this sum to be subscribed during Victory Week, November 30-December 7, but to be paid during the next five years. The money that we raise will be apportioned among the various interests of the campaign as follows: Foreign missions, \$1,102,487; home missions, \$648,000; state missions, \$425,000; Christian education, \$1,437,427; hospitals, \$500,000; orphanage, \$243,000; and ministerial relief, \$187,126."

## Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL BE ERECTED IN DEVASTATED BELGIAN CITY.

Brussels To Be Center of Large Enterprise On the Part of Southerners.

Nashville, Tenn.—A great Methodist Church, erected and maintained by the Methodist Episcopal Church, South, will be erected amid the ruins of Ypres, in Belgium. This was stated by Dr. W. B. Beauchamp, director-general of the Centenary Commission, who, with Bishop James Atkins, the bishop in charge of European mission fields, just returned from Belgium.

The city of Ypres, terribly devastated, will not be rebuilt in its entirety. The once magnificent Cloth Hall, the finest in the world, the Cathedral, the town hall, the churches, and other large ruins will be left as a perpetual memorial.

On these the city mayor has caused signs to be erected, reading: "This is holy ground. No stone of this fabric may be taken away. It is a heritage for all civilized peoples."

A City of Memorials. Ypres is a city of memorials. The British government has selected a site and will erect a great museum as a monument to her fallen heroes.

Similar buildings will be built by Canada, New Zealand, Australia and Belgium.

In the midst of these memorials the Southern Methodist Church will be erected. It will contain a library, reading room and social equipment, in addition to its auditorium and class rooms.

"Ypres will always be a mecca for travelers," said Dr. Beauchamp. "Thousands and millions will flock to that battlefield. Our Church will not only minister to the people of Ypres and the surrounding territory, but it will also serve these visitors."

Great Plant in Brussels. The Methodists have also purchased a great building in Brussels, which will be their headquarters for Europe. It will contain offices, an auditorium, reading and lecture rooms, a publishing plant and social equipment.

The general secretaries of the two Protestant bodies of Belgium, the state Church and the free Church, will have offices in this building, thus making it the Protestant center of Belgium.

Southern Methodists have also purchased a half interest in the Protestant hospitals of Brussels. It will be enlarged and its capacity will be doubled.

Relief Stations Established.

Dr. Beauchamp reported that thousands of children will freeze to death this winter, because the Germans flooded the mines and filled them with explosives, thus making it impossible for the people to obtain fuel.

"Children with their mothers," said Dr. Beauchamp, "are now living in the abandoned trenches and dug-outs left by the enemy."

In order to cope with the situation the Methodists have arranged to open relief stations at Ypres, St. Quentin, Moudridier, Belgrade and other points.

A full contingent of physicians, nurses, directors and social workers will be sent abroad as soon as they can be found.

The Church has a fund of \$5,000,000 for European construction work. This will be spent in Serbia, France, Belgium, Poland and Bohemia.

## Revival Planned For Entire South

Widest Evangelistic Effort Ever Made Will Be Launched Soon.

Nashville, Tenn.—Plans for an evangelistic movement which will cover the entire South and operate in 20,000 churches at the same time are being formulated by the Centenary Commission and the evangelist committee of the M. E. Church, South.

Bishop U. V. W. Darlington is the chairman of the joint directing committee and Dr. O. E. Goddard is the executive secretary.

Standard Plan Made.

The movement will operate according to a standard plan. This plan provides for a preliminary survey of the entire South to discover what persons are not affiliated with any religious denomination.

Dr. A. C. Zumbrennen is in charge of the survey, and he has made preliminary investigations in a large number of typical sections as samples to guide pastors in surveying their own fields.

When these surveys are completed the evangelistic movement will be launched in an effort to interest all non-church members whose names have been secured.

It has been estimated that half a million workers will be enlisted to personally interview the persons who have no church membership.

## GOVERNOR AND YORK INDORSE HEALTH MOVE

BOTH OFFER SERVICES TO TENNESSEE ANTI-TUBERCULOSIS ASSOCIATION'S CAMPAIGN.

Only one other state in the Union had a higher native death rate from Tuberculosis than Tennessee last year, and that was Kentucky. It is because of this peril that Governor A. H. Roberts has offered his services as State Chairman to the Tennessee Anti-Tuberculosis Association, and Colonel Alvin C. York has also offered to serve on the executive committee of the coming campaign to sell Red Cross Christmas Seals from the 1st to the 10th of December.

In this state 4,561 people died of Consumption last year according to the State Board of Health. And since many investigations held throughout the country show that for every death there are eight people left infected with the "Great White Plague," there are now more than 36,000 cases of Tuberculosis in this state.

The Tennessee Anti-Tuberculosis Association and its 1,000 affiliated organizations throughout the country have found that the plague is controllable, preventable and curable. It is not hereditary. The germs get into the lungs from dust laden air, public drinking cups and other such conveniences, and stay there till the vitality of the body is so reduced that they can get to work and finish the job that unhealthy living conditions has made possible.

During the past year the four public health nurses of the state association have visited every county in the state. Their reports show that they talked to the school children, teaching them to be healthy. They investigated the cause of diseases such as sewerage, the disposal of garbage, the water supply. They visited folks stricken with tuberculosis and taught them how to fight the disease.

"The problem of bettering the public health is a tremendous one and the splendid co-operation and service of the Tennessee Anti-Tuberculosis Association with the State Boards of Health, Charity and Education enables me to endorse their campaign with pleasure," said Governor Roberts. "The society is doing wonderful work in teaching us that we are not only responsible for our own health, but that we are also responsible for that of our neighbors. I am glad to commend it and to urge the people of the state to support this campaign."

### HUNT FOR "TB" SOLDIERS

What has become of Tennessee's 2,200 soldiers who were discharged or rejected in the draft because they were suffering with Tuberculosis and who are fighting for their lives against this disease? This question is being asked daily by the Tennessee Anti-Tuberculosis Association who is constantly receiving the names of these men from the surgeon-general's office and who have been unable to get in touch with the majority of them.

When the facts were published about the results of the selective draft the whole country stood aghast at the report that out of the two million and a half men called to the colors 69,000 of these were rejected because of Tuberculosis and that later 21,000 men were discharged from active service for the same reason.

These men are not hopeless cases. If taught how to care for themselves they can fight off the disease and become useful citizens and this is what the Tennessee Anti-Tuberculosis Association and its 1,000 affiliated organizations throughout the country propose to do.

But thus far only a small percentage of the 2,200 rejected and discharged men in this state have been found. Many have moved, and many more, when they were discharged, did not come home. At the present time every effort is being made by the state association to find these men that they may be helped back to health.

### FOR OUR HEALTH

Tennessee needs more Fresh Air Camps, Open Air Schools, Public Health Nurses and Sanitariums to fight Tuberculosis. The money raised in this drive is to be expended in Tennessee for these things and to educate and prevent disease.

It is for these reasons that the campaign has been endorsed by the Governor and a host of prominent Tennesseans and that everybody should aid in stamping out the "Great White Plague."

### MODERNIZED TENNYSON.

I sneezed a sneeze into the air. It fell to the earth I know not where. But keen and strong were the looks of those In whose vicinity I sneeze. —Albuquerque Journal.

"How long," says Cy, when the rain had stopped As we perched upon a log, "Should a mud-puddle her to set Before it hatches a frog?"

YES, SIR! He spent his health to get his wealth. And then, with might and main, He turned around and spent his wealth To get his health again. —Buffalo Sanitary Bulletin.
